

# MAGB1

## BATTERY POWERED ELECTROMAGNETIC FLOWMETER!

Now is possible to install a reliable flowmeter virtually anywhere without sacrificing accuracy or performance. No mains power required. Suitable for irrigation, remote applications and in general any other application where power supply lines are difficult or expensive to provide.

### Features:

- Powered by 2 x 3.6V batteries with up to 5 years life
- Battery conservation when the pipe is empty
- Empty pipe detection, automatically turns off the excitation to prolong battery life
- Isolated binary output (pulse/litr or alarm or flowrate functions)
- MODBUS RTU communication protocol via USB
- Graphic display 128 x 64 px
- ±0.5% accuracy of actual value

Arkon will accept orders from 1st April 2010\*
